WHEELING A VIRGINIA REEL . . . Did you ever hear of wheelchair dancing? These members of an indoor sports club in California prepare for square dancing which will be held in Santa Monica. From left to right are H. G. Wood, Alfena Pellett and Phyllis Steiner. Some 140 members of the club, an organization for handicapped, regularly participate in the dancing. Proceeds from the dances are being kept in a fund to finance a clubhouse in the Los Angeles area so that more handicapped persons may be admitted to the club.

RED RALLY IN BERLIN . . . A general view of the huge crowd, estimated at between 200,000 and 300,000 persons, that staged a giant rally on the Unter den Linden, in front of the Berlin university, to acclaim the "mayor" of Berlin, Friedrich Ebert. The son of the first president of the German republic established after World War I was "elected" as mayor by a rump assembly set up in opposition to the duly elected assembly which was frowned upon by Soviet authorities. Reds were angered by the West's refusal to call off Berlin city elections.

### Along the Greene County Farm Front

#### Nitrogen Fertilizer Demonstrations

Greene County has been allotted a car of 30 tons ammonia nitrate limestone fertilizer for demonstration purposes. The allocation is made by the Ohio State University Extension Agronomy Department. The fertilizer carries 20.5 percent nitrogen, one-half as nitrate nitrogen and one-half in the ammonia form.

It is a new form of nitrogen fertilizer, and is said to be ideal for top dressing and it drills exceedingly well. The products also keeps its condition in storage very nicely.

A limited amount is being furnished the extension service in Greene County to promote fertilizer practices known to be profitable, but not yet widely adapted. The material may be used on corn, soybeans, wheat, oats, meadows or permanent pasture.

Farmers interested in conducting a demonstration are urged to file an application with the county agents office for one ton of the fertilizer which will sell for the market price of \$58.50, delivered.

(Doc) Evans of Cedarville is president of the Ohio Assn. with Paul Teegarden, Pickaway County, vice president and Professor J. S. Coffey of O. S. U. secretary. More Meat Today, Less Tomorrow

That's the meat supply out-

looked for forecasted by C. W. Hammons, O. S. U. Extension Marketing Economist in commenting on increased supplies of meat on the market.

With the marketing peak past now on all livestock, meat supplies can be expected to be less during the first half of 1949.

Whether substantial increases in fresh meats can be achieved by 1950 depends largely on 1949 crop yields and farmers' livestock breeding and feeding plans. Meat supplies can not be increased over night since farmers first must increase the size of breeding herds, and then wait 7 to 9 months for new born pigs to become butcher hogs, and 13 to 24 months to produce slaughter steers from calves.

If the bumper crops of 1948 are followed in 1949 by above average yields, there is every reason to expect livestock numbers will increase. Since the 1948 corn crop of 3.9 billion bushels was the largest on record, and other grain crops and feed concentrates supplies increased 29 and 22 percent, respectively, there is every reason to believe more livestock will be fed and to greater weight in 1949 than in recent years.

#### Remember - Dose Sheep

In December

Packing plants report severe infestations of internal parasites in slaughtered lambs, which should be a reminder to flock owners to treat their sheep. The pasture mix method will prevent worm eggs from hatching; but dosing with pellets or a drench is necessary twice a year to kill the worms.

#### Dosing the ewe flock in the fall and again in the early spring

as soon as the lambs have been dropped is the best method of controlling these parasites.

#### Feed Shell And Grit

To poultry keepers it is important in feeding layers. Oyster shell is necessary because this form of calcium is used in making the egg shell.

Hard granite or sandstone grit is well worth using. You get

greater efficiency from feed consumed by feeding grit. However, grit will not take the place of oyster shell.

#### Treat For Cattle Grubs

Cattle grubs cut meat and milk production and ruin a lot of hides for leather. This is the season of the year when the grubs are showing up in the backs of cattle. Treating as soon as the grub holes appear will do a lot to reduce these losses.

Complete directions for rotenone treatment may be had at the county agent's office. Early treatment allows for needed follow ups to exterminate all the grubs and eliminate some of the re-infestation next year.

### Three Injured in U. S. 35 Accident

Three men had narrow escapes from fatal injuries when an automobile crashed into a farm tractor on Route 35, at the Patterson farm, west of West Lancaster about 6:15 p. m. Thursday.

The accident occurred when George M. Garringer, 32, was driving his farm tractor on the highway near his home, and the tractor, which was carrying a radio light, was hit by an automobile containing Richard and Gene Wright, brothers, aged 16 and 18 years, of Milledgeville.

The tractor was struck while the car was moving rapidly, and both tractor and auto were badly damaged.

Garringer was hurled from the tractor and landed in front of it. He saved his life by rolling over and over in front of the tractor as it kept bearing down toward him.

The tractor finally swerved and turned upside down in a ditch. Garringer escaped with severe bruises.

The Wright brothers were both injured, and Gene sustained severe lacerations about the face which resulted in much blood being lost before he could be removed to the office of Dr. Hugh Payton, in Jeffersonville, where he and his brother, less severely injured, were cared for.

The Gerstner ambulance was used in moving the two men to the physician's office, and later they were taken to their home in Milledgeville.

State Highway Patrol officers were soon on the scene, and Deputy Sheriff Guy Carter also investigated the accident.

George Bayes, Milledgeville, who was with the Wright brothers escaped injury.

A World War I veteran, he was a member of the Versailles American Legion, St. Dennis Catholic church and the Greenville Elks lodge.

### Blue Cross Fees Are Now Payable

Members of the Blue Cross Hospital Care group enrolled through the community of Cedarville, Ohio, may now pay their fees at the Cedarville Federal Savings and Loan before January 10, 1949, according to J. Melvin McMillan, the volunteer leader for the Cedarville group. This quarterly payment will cover membership fees for the period of January 10, to April 10, 1949. Billings are now being sent to members homes.

A recent survey shows that hospital costs have risen 25 percent in the last year, according to Hospital Care corporation.

New advances in the practice of medicine, a greater number of people going to hospitals, and more extensive use of procedures like x-ray and laboratory tests are factors which have made hospital bills higher.

### Indiana Truck Wrecked at East Point

A 26-year-old South Bend Ind., man escaped serious injury early Tuesday morning when the truck and trailer he was driving left the road and turned over on a curve five miles northeast of Xenia on U. S. 42, Sheriff's Deputy Robert McCafferty reported.

John Hutchinson, driver of the truck, was treated at Springfield City hospital for abrasions about the body and was to be X-rayed later for possible chest injuries.

Deputy McCafferty said the truck driver had already been taken to the hospital when he arrived on the scene, but it appeared the heavy truck and trailer, loaded with tires, failed to make the curve at the top of a hill. He said the driver apparently lost control of the vehicle which went off the road, turned over and slid nearly 150 feet on its side before coming to a stop against a tree in a ditch.

The deputy said the truck bore the name of the Hayes Motor Freight Co. and carried Indiana license plates.

Mr. Hutchinson was first taken to McClellan hospital, then sent to Springfield for further treatment.

### Navy Releases Brother of Accident Victim

A long distance telephone call was the most welcome gift received by Mr. and Mrs. Charles W. Manor, near Cedarville, which made them happy on the holiday.

The call came Saturday from their son, Seaman, first class, David Willis Manor, 20 from Norfolk, Va., where he is awaiting his naval discharge.

It came as a surprise to the parents as they did not expect their son to return to the United States until late January. He plans to come home shortly after Jan. 1 as soon as his final discharge is final.

The youth will assist his parents on the farm on which they reside in Cedarville township, midway between Cedarville and Jamestown, a short distance off Route 72. Plans have been under way several months to obtain his release so he could assist on the farm as an elder brother, Charles William Manor, Jr., 23, was killed in a corn picker accident Oct. 4.

Seaman Manor was inducted into the navy, Dec. 1, 1947 and has been out of the United States since September. He was stationed in Italy when notified he was to return to the United States to receive his discharge.

#### HAPPY NEW YEAR!

Nobody can dispute the philosophy that life is what we make it. We see examples of persons with little or no apparent cause for cheer or even acceptance of a bad situation bravely, and often happily as a challenge. To the average American 1949 is being greeted cheerily and hopefully. No people on the earth has so much to be thankful for as we Americans. There is nothing in the offing, nothing even predicted, that is foreboding. Polls (we hate to bring up that word) show that Americans face the new year courageously, and expectantly. We wish for all our readers a happy and prosperous year, and we sincerely believe they will have it.

#### THE LESSON OF GIVING

Witnesses are never lacking to testify that the greatest joy they ever found came from giving. The happiest men we saw during the Christmas week-end, to say nothing of women and children, were those who took an active part in Christmas giving, to less fortunate people, parents and children. Verily, it is more blessed to give than to receive. Very soon now the almanac starts dealing out 365 days, one at a time, to everybody, share and share alike. They joy of those days will depend largely upon giving; the greatest gives—not of money always, but of themselves—will be the greatest receivers. He profits most who serves best.

#### NAMING THE PRINCE

The royal family named the prince.  
For all the men from Canute since;  
But he will have much better luck  
If folks just call him "Chuck".

#### REAL ESTATE STABLE

The experts are stumped again. They predicted a major depression a long time ago. Then they were sure land values were dropping to an all-time low very soon. Neither has happened yet. Nobody is certain that both things will not occur, but so far there is no indication of anything immediate of that character. Land prices have varied very little locally or nationally. Demand has slowed up they say, but at that demand for farm land is quite brisk and sales hold up. Investment in Greene county land or residence property is never out of line with good business. It is always a good investment.

#### THEY SHRUNK THE GLOBE

The Wright brothers' airplane made its first flight a bit over 45 years ago. Nothing ever shrunk terrestrial ball like that event did. Though both the Wrights have "joined innumerable caravan" in motorless flight to a higher-than-air realm, the man who built the airplane engines for them is still living, at 80. Bishop Wright's boys were tinkers. They ran a bicycle shop as lads. For a long time after Kitty Hawk the brothers experimented with heavier-than-air craft. Dayton newspapers wouldn't print anything about it. They were cranks, Co was Christopher Columbus, Alexander Bell, Henry Ford, and scores of other dreamers.

#### MORE PIGS

The little pigs that go to market are going to be 10 per cent more numerous in 1949 than in any year since H. Agar Wallace went on the anti-pig rampage way years ago. It takes a good many years to catch up on pig production, you know. A drive along Route 72 between Jamestown and Cedarville presents a

pig picture that is indicative of what the country plans all over the corn-and-hog belt. More corn, more wheat, more hogs—that's the program of American farmers for the new year. Everybody hopes they succeed.

#### THE BREAD BASKET

The Bible stresses the fact that man shall not live by bread alone, but there is no suggestion of punishment for providing bread. And He who gave us the idea, fruitful as it is, was always first in lending a helpful hand to those about Him who were needy. So, we feel there is divine approval of the American plan for producing the largest wheat crop in all history in the year 1949. Plantings of fall wheat, with the spring sowings to come, will make that possible, weather favorable. The world is still hungry.

#### OH, DEER, DEER!

A man was deer hunting near Philadelphia. He shot one. It bounded away, only to fall dead some distance from the hunter. It was discovered by a farmer in one of his fields, and the farmer took it to the farmyard and butchered it. Later the hunter demanded the venison. The court was asked to decide whose right it was to have the meat—the marksman or the farmer. The farmer who dressed the wounded deer, was declared the venisoneer, possession being in this case all ten points in the law.
